

Shenabeth Jenkins

Silver Spring, MD | shenabeth@gmail.com | shenabeth.github.io

EDUCATION

University of Maryland

Bachelor of Arts in Computer Science, Minor in Astronomy

College Park, MD

Montgomery College

Associate of Arts in Computer Science

Rockville, MD

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, C, C++, C#, SQL, HTML/CSS, React/React Native, Node.js, Kotlin

Tools: Git/GitHub, Linux, Jira, Visual Studio, VS Code, Eclipse, Figma, Webflow, Adobe Suite, Android Studio

EXPERIENCE

Web and UX Designer

May 2024 – Aug. 2024

Toucan Family (Web Freelance Startup)

Remote

- Took ownership of stalled web development projects, delivering complete responsive website using Webflow and Squarespace with 100% client satisfaction
- Led all client communications and created comprehensive branding guides, ensuring cohesive design implementation across all touchpoints

Game Developer

Aug. 2022 – Aug. 2023

Memley (Cross-Platform App Startup)

Remote

- Designed and prototyped 15+ game levels and interactive mechanics using React Native and Game Maker Studio, creating digital assets and currency systems to drive user engagement
- Developed in-app purchase functionality and shop mechanics, implementing asset management systems while mentoring team members on coding best practices

Data Analyst Intern

May 2022 – Aug. 2022

Quantifiable (Data Science Firm Startup)

Remote

- Led data analysis projects using Google Analytics with advanced regex implementations and custom filters, completing 80% of client deliverables independently
- Documented detailed meeting notes and tracked action items in Jira, improving team coordination and supporting on-time project delivery

PROJECTS

CardVault - Trading Card Tracker | *React Native, Expo, JavaScript, AI Integration*

Summer 2025

- Led development of mobile app for tracking physical trading card management, implementing camera-based card scanning with planned AI image recognition features
- Built cross-platform mobile solution using React Native and Expo, designing intuitive UI for card cataloging and inventory management systems

Secure Auth Login System for Web | *React.js, Node.js, Express, MySQL, Linux*

Fall 2024

- Developed an enterprise-grade full-stack authentication system with secure session management, implementing hashed user data with bcrypt and MySQL database integration
- Designed RESTful API endpoints and database schema, ensuring scalable backend infrastructure with comprehensive security protocols

UniPlanner - Mobile Planning App | *Kotlin, React Native, Adobe Creative Suite, Figma*

Spring 2022

- Led the development of a mobile gamified productivity app by designing wireframes and UI elements in Figma, creating a branding guide for consistent styling, documenting planned features, and conducting user research
